Office Action Summary

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-23, drawn to three or more controllable load devices, classified in class 315, subclass 317.
- II. Claims 24-40, drawn to detachable electrical connectors or supports, classified in class 313, subclass 49.
- III. Claims 41-44, drawn to discharge device loads, classified in class 315, subclass 56.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by there different classifications restriction for examination purposes as indicated is proper.

A telephone call was made to Ole K. Nilssen on 11/07/97 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Reginald A. Ratliff whose telephone number is (703) 308-4904. The examiner can normally be reached on M-F from 9:00 to 6:00.
